Trumbull County

About the County

Trumbull County was established in 1800 and named for Connecticut Governor Jonathan Trumbull. The 1800 Dicennial Census recorded 1,302 residents in a county covering 615 square miles. The County seat is Warren, which also is the largest place in the county, with 21% of the population. Neighboring Niles city is second largest, with 9% of the population, followed by Howland township with 8%.

Nearly 33% of the county's employed residents work in manufacturing, followed by 24% in trade and 22% in services.

Attractions in Trumbull County include the Clarence Darrow Octagon House, W.D. Packard Car Museum, Mosquito Lake State Park and the Newton Falls Covered Bridge.

Information presented in the "About the County" section is from the County Profile created in the Office of Strategic Research at the Ohio Department of Development.

About This Profile

This demographic profile presents an overview of the 60+ population in the county. The statistics presented are from the 2000 Census, as distributed on the Census Bureau's web site factfinder.census.gov. Additional information is from the Office of Strategic Research at the Ohio Department of Development (www.odod.state.oh.us/osr).

Please note that the numbers for income, living arrangements, and disability start with the 65+ age cohort.

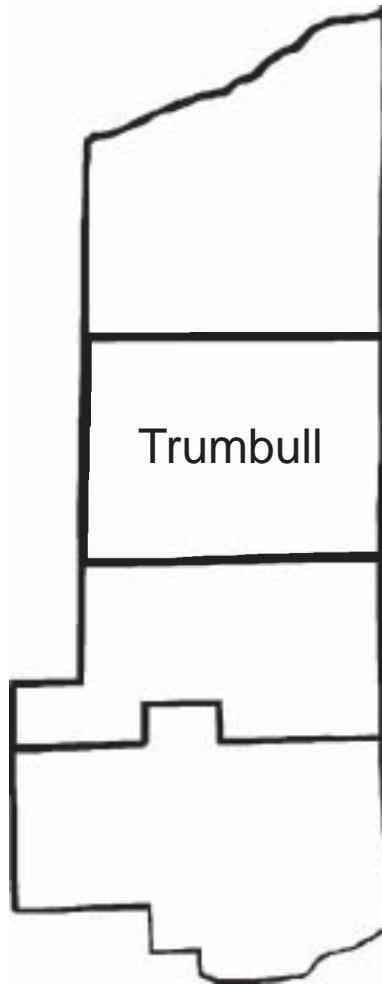

About the Area Agency on Aging

In 1965, federal legislation known as the Older Americans Act was put in place to ensure that some basic services were available across the country to meet the needs of older citizens. The

Older Americans Act included the establishment of the federal Administration on Aging, state units on aging and Area Agencies on Aging to serve specific geographic planning and service areas (PSAs). An Area Agency on Aging has responsibility under the Older Americans Act to plan, coordinate and fund services in each community in its PSA.

Area Agency on Aging 11, Inc. was incorporated in 1976 as a private, non-profit corporation. The PSA is Ashtabula, Trumbull, Mahoning and Columbiana counties in northeast Ohio. As the designated Area Agency on Aging for this PSA, we contract with the state of Ohio, under the oversight of the Department of Aging, to channel federal and state funds to community based organizations in each county which provide services directly to older adults. The Older Americans Act dollars which fund services are Titles III B (Social Services), C (Nutrition Services), and E (Family Caregiver Support Program). The state also provides funds for services in certain categories under the Social Services

Block Grant.

TRUMBULL COUNTY

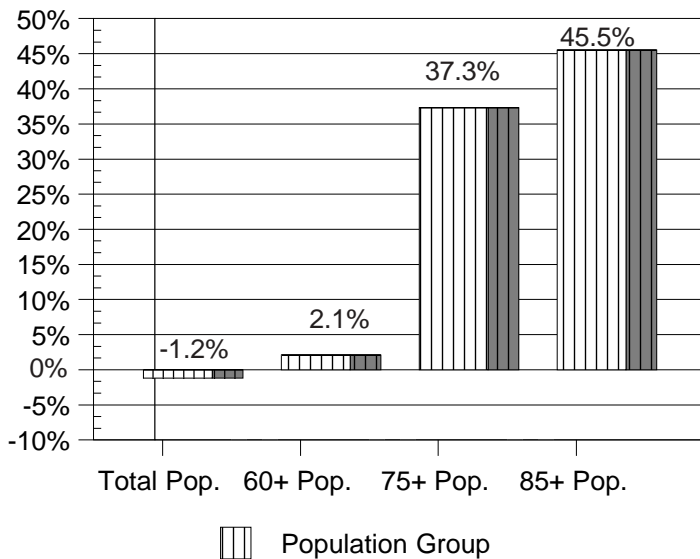

Scale of Miles

Population Changes 1980-2000

This chart shows the change in the total population and the 60+ population over the past two decades. The change from 1980-1990 shows a dramatic increase in the 60+ population as a percentage of the total population. Between 1990 and 2000, the total population decreased by just over 1%, while the 60+ population grew by just over 2%.

Changes Within the 60+ Population

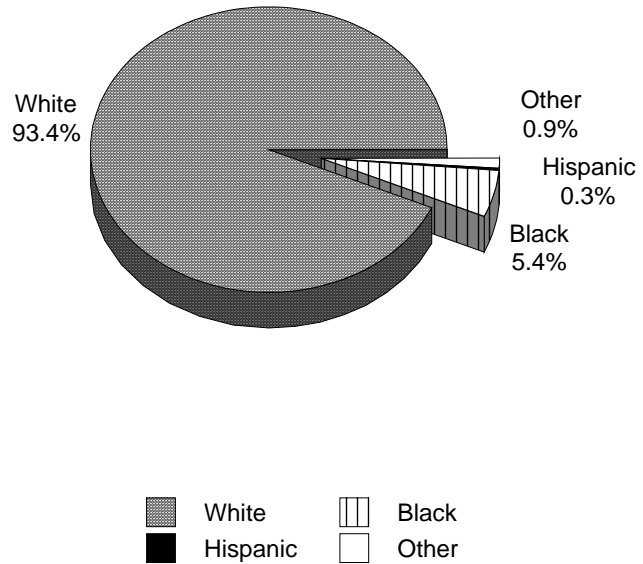

Although the population age 60 and over showed a modest 2% growth between 1990 and 2000, the population of those age 75 and over and 85 and over showed dramatic increases.

Race of the 60+ population

This chart shows the percentage, by race, of the 60+ population in the county. The definition of race used here is the one used by the Census Bureau. For display purposes in the pie, the subcategories of American Indian/ Alaska Native, Asian, Native Hawaiian/ Pacific Islander have been combined and included in the "Other" category. Those races breakout to:

American Indian/Alaskan	43
Asian	134
Hawaiian/Pacific Islander	2
Other	10
Two Races	208

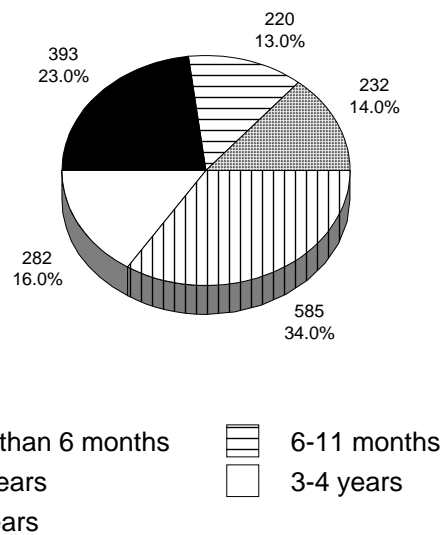

Persons identifying themselves as Hispanic may also be counted in other race categories.

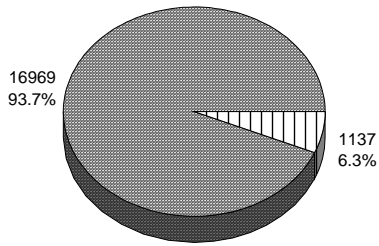

Grandparents Raising Grandchildren

Ohio has more than 193,000 children living in households headed by grandparents and other relatives. In Trumbull County, there are 1,712 grandparent households with responsibility for their grandchildren. These grandparents households include any grandparent over age 30 with grandchildren under age 18.

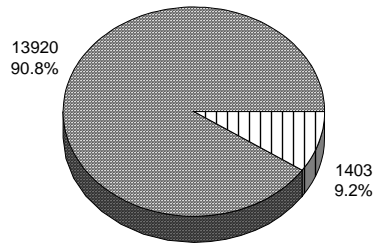

The chart to the right shows the length of time that those grandparents have had responsibility for their grandchildren.

Income of the 65+ population

The charts on this page show how income changes for the population over age 65. Among the older adult population, poverty status is determined for all except those who are institutionalized. The poverty threshold for an individual age 65 and over in 1999 (the year measured by the 2000 census) was \$7,990 (\$665/month), and for a couple \$10,075.

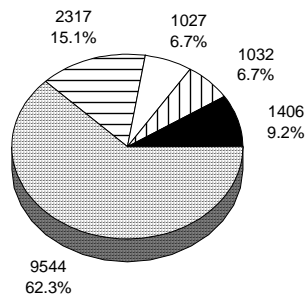

The pie charts to the left show the percentage of people age 65-74 and 75 and over above and below poverty level. These charts show that the percentage of people with income below the poverty level increases over age 75.

This chart compares income for men and women, at ages 65-74 and 75+. While both men and women experience a decrease in income as they age, more women have incomes below poverty and have more dramatic increases in poverty than men as they age.

% of Poverty Level, 65-74

% of Poverty Level, 75+

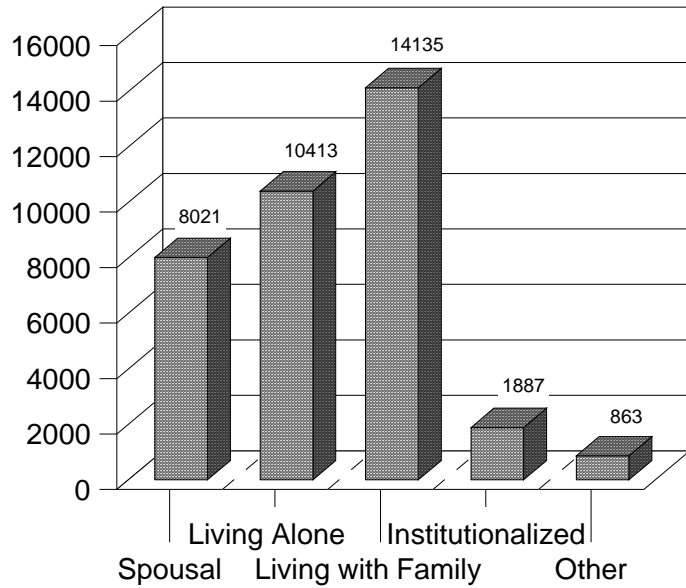

■ Below Poverty
 ▨ 125-149%
 ▩ Above 200%
 ▨ Poverty- 124%
 ▨ 150-199%

■ Below Poverty
 ▨ 125-149%
 ▩ Above 200%
 ▨ Poverty- 124%
 ▨ 150-199%

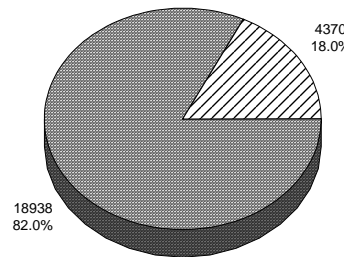

These charts show the income of the 65-74 and 75+ population as a percentage of poverty level. Of those ages 65-74, nearly 14% are below 150% of poverty. After age 75, that percentage increases to nearly 23% of the population at or below 150% of poverty.

Living Arrangements of the 65+ Population

The chart to the left shows the living arrangements for those age 65 and over in the county. About 40% of the population is living with family, followed at 30% by those living alone. Those living with a spouse comprise 23% of the population, while those who are institutionalized are 5.3% of the population. At 2.4% of the 65+ population, the “other” category includes those in non-family situations or those in group quarters.

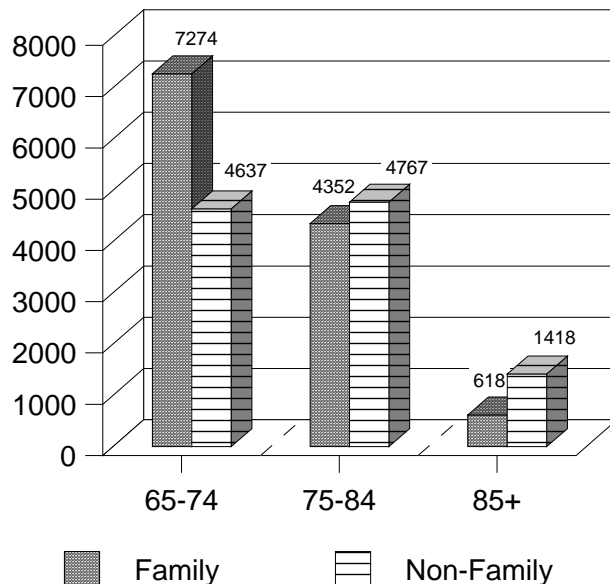

Of the population age 65 and over in Trumbull County, 81% own their home, while 19% rent their residence. Of those owning their home, 49% are married couples, followed at 29% by women living alone. For renters, 55% are women living alone, followed at 17% by men living alone and 16% married couples.

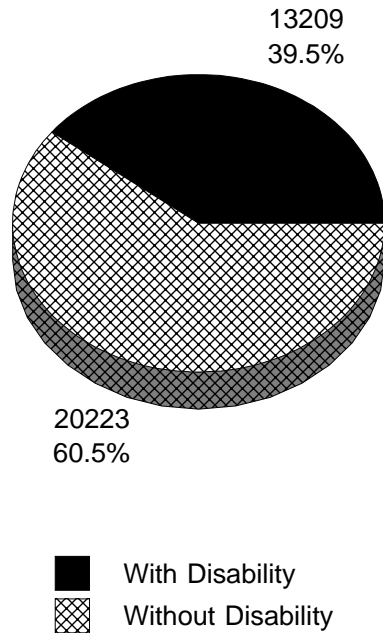

▨ Renter ■ Owner

The chart to the left shows how living arrangements change as an individual ages. Those age 65-74 are more commonly in family living arrangements, but after age 85, non-family arrangements are more common. Non-family arrangements include those living alone, or living with people to whom they are not related.

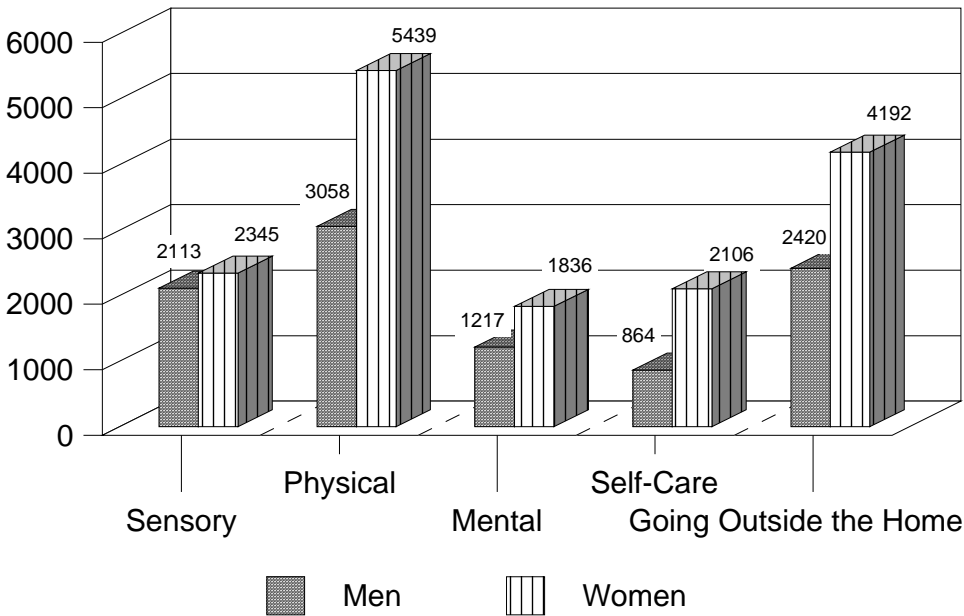

■ Family ▨ Non-Family

Disability and the 65+ Population

Of the 65+ population in Trumbull County, almost 40% are living with some form of disability. According to the Census Bureau a disability is “A long-lasting physical, mental, or emotional condition. This condition can make it difficult for a person to do activities such as walking, climbing stairs, dressing, bathing, learning, or remembering. This condition can also impede a person from being able to go outside the home alone or to work at a job or business.”

This chart shows the breakdown, by disability category, for men and women over age 65. Note: an individual may report more than one category of disability, so totals by category do not add up to the total number of disabled persons.

Of persons over age 65 reporting a disability in Trumbull County, 64% of both men and women report a physical disability, followed by 50% reporting a disability which limits their ability to leave their home.

Services Funded by Category

In 2002 in Trumbull County, social service funds from the Area Agency on Aging have been allocated in six basic categories. This chart shows those allocations, which include Older Americans Act Title III Social Service and State Block Grant funds.

The Family Caregiver Support Program (FCSP) funds, a new allocation beginning in 2001, added over \$142,000 to the service dollars available in the county for 2002.

FCSP: Family Caregiver Support Program

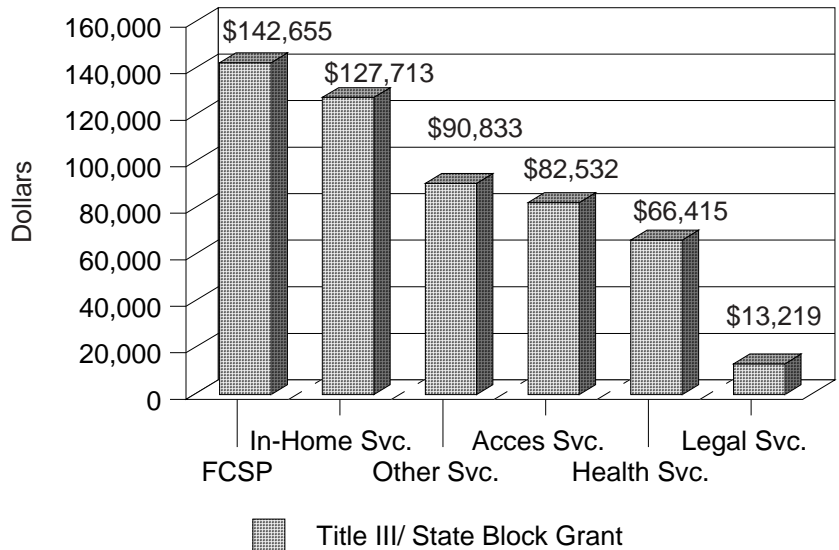

In-Home Services: Personal Care, Homemaker, Chore, Home Repair, Telephoning

Other Services: Supportive Services, Recreation/ Socialization, Protective Services, Education, Volunteer Placement

Access Services: Transportation, Information and Referral, Mass Outreach, Escort

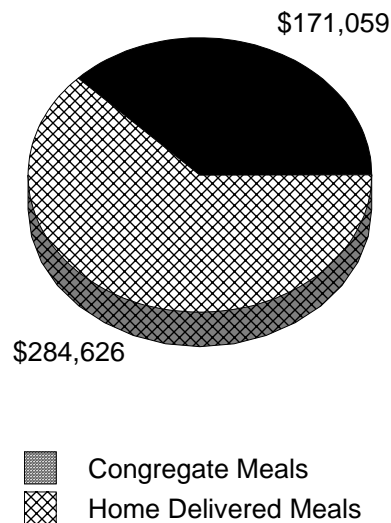

Health Services: Medical Assessment, Medical Treatment, Health Education, Day Care

Legal Services

Nutrition Services

Of the \$455,685 available for nutrition services in Trumbull County, nearly 38% is spent on congregate meals. The remaining 62% is spent on home delivered meals. State Block grant funds supplement the federal dollars available for home delivered meal services, while the congregate meals receive federal funding only.

Funding by Service- 2002

The charts at left show the amount of money allocated in 2002 for each of the social services funded by the Area Agency on Aging. These charts include state and federal money, along with an estimate of cash support, based on previous year contributions to each service. CASH may include United Way funds and in kind support from the funded provider.

When cash is added to the mix, the service dollars available increases by 64%, from \$380,712 to \$624,867.

With these allocations, federal money represents 41% of the money available for services, followed by cash at 39% and state money at 20%.

Adult day care and transportation are the largest expenditures in Trumbull County.

NOTE: The scales on these charts are VERY different. Please refer to the figures at the top of each service category for actual dollar amounts represented.
