What is Title III Older Americans Act?

The Area Agency on Aging 11 receives Title III funds for people age 60 and older through the Older Americans Act of 1965.

The OAA is designed to give communities control over policy and program decisions, and to support the best mix of services at the local level.

All people age 60 and older are eligible for services. Unfortunately, due to limited funding, some services are not always available. The best way to see if the service is available is to call the provider listed on the inside page of this brochure.

There is no charge for services, but donations and/or cost share are encouraged to help continue services. Providers may target those clients who are either low income, minority, over 75, female, handicapped or live in rural areas.
